## **POPULAR BOATING 1958, Boat Show Issue**

### **Boats In The Belfry Archives**

*A searchable Database in Acrobat PDF format.*

A searchable Database in Acrobat PDF format. Search by Page or topic in Adobe Reader from your web-browser. This information is derived from Kevin Mueller's personal collection of printed magazines, catalogs, manuals and advertisements. This service is being provided as a means for identifying unknown boats by visual reference and description.

This magazine catalog as originally formatted by Popular Boating, has each year's entries alphabetized twice. Therefore, if you don't see what you are looking for in the first part, there will be a second part titled; *New Announcements*. Please be sure to look there too. Find it easily from the bookmark or by searching the words "*new announcements*". Please note that many boats are listed both under the manufacturing name and/or the Brand.

You will need to print on legal size paper since the originals were a little too large for letter size.

Other websites may not link directly to the archive. Please link only to the Boats in the Belfry Home Page.
